TIME: NIGHT
DURATION: UNKNOWN
WITNESSES: 200 +
SOURCE: CELINA, TENN. (AP)

Residents in this rural town along the Tennessee Kentucky border say an unidentified object hovered over a local softball game and has made several other appearances in the past week.

The craft was first sighted by about 200 people at the softball game on Tuesday, said Donaid Napier, publisher of the local newspaper. The Clay Citizen.

It was making just a deafening noise...Out on the field, the umpires, the pitcher, the batter and everybody just stoped what they were doing and just looked straight up. It got everybody's attention, Napier said. Witnesses said the object was 250 to 300 feet long, with an octagonal shape at least four outside lights and a beacon at the center. It looked just exactly like a jet plane and sounded like it was going to crash. It was going down at about a 45 degree angle right toward the river, he sais.

Clay County Sheriff's Department officals said they have had numerous calls about reported sighting since Tuesday. Dwight Goolsby, owner of a local restaurant said he saw the craft, It had one big white light spotlight-like on each side shining down on the ground. He said you could see real good on the ground. It was just sitting there, then it eased off over the horizon.

Melba Burch, of the Chamber of Commerce, said the craft passed over her home. It sounded mighty darn low. She said my husband's worked around planes and I've been around planes all my life. This wasn't any light plane that came over my house.

TIME: 2100 HOURS
DURATION: 2 1/2: MINUTES
WITNESSES: TWO
SOURCE: NATIONAL UFO REPORTING CENTER

Witness stated he didn't see any figure, he couldn't make it out. What he saw

was a bright light, an amber colored light up about 40 - 50,000 feet at about 9:00 p.m. He saw it for about 2 1/2 minutes. Another witness saw the last 20 - 30 seconds of it. The night was crystal clear and the light was moving real fast, incredibly fast, faster than a fighter leaving a vapor trail. He was really amazed by maneuvers it made and the remarkable turns it made. It was above them for a while. Made maneuvers half a dozen times. Some were pure 90 degree turns. Seemed to slow down and stop a little, hesitate and then move and make a turn. Made zigzags. First came from north and went south then went west and hovered then moved few zigzags and then as it came towards then it made really sharp turn then headed back toward west and out of sight. Maintained the same color the whole time.

At 8:26 p.m. witness took his trash out to the dumpster and as he was walking back he observed a light about twice the size of a star. It did some amazing things, very quick. It first zigzaged coming from north then went east stopped and came towards him then bolted west then east and west again and disappeared.

He went in the house and told his wife and when they came back outside there were two jet con trails that apparently were following the same thing. Tryed locally to find out what it was but was unsuccessful. Very sharp maneuvers and felt that it could out maneuver any jet.

WITNESSES: MANY
SOURCE: PASU PA.HOTLINE 412-838-7768

A number of cars on US route 119 observed what they thought was an aircraft coming down out of the sky and looked like it was going to make a crash landing in the middle of the highway. Cars coming from both directions observed it. It had green lights, six to eight lights, larger than normal navigational lights, none flashing. Observed for 30-40 seconds then from each direction there was like a bend coming around and right at the spot where they lost sight

of it. When they all came around the bend the hillside was on fire indicating that it had crashed on a real steep embankment. People stopped on both sides of the road to climb up the embankment to put out the fire thinking that an airplane had crashed, but there was no crash and the object just disappeared. There was a nine foot diameter fire on top of the hill. The report went into Emergency Service as an airplane crash. They went up on the hill the next day and found two burnt circles, samples have been taken and are presently at the lab. What was unusual about it was the fire was put out very quickly but after 15 hours of the incident the area where the fire had been still had warm stones but outside that area the stones were cold. One witness was coming from California and was an air traffic controller. He stated he would sign a statement stating that what he saw was not a conventional aircraft and it was double tiered object with eight to ten green lights and whatever it was was not a normal aircraft.

WITNESSES: TWO OR MORE
SOURCE: NATIONAL UFO REPORTING CENTER

Two sightings were reported, one in each city one right after the other. The first was spotted in Wapato and described as being a red light moving in the direction of Zillah. When the light was out of sight they called the police department of Zillah who spotted it coming their way. Out of the red light came some other kind of object in Zillah. The second object was also seen in Wapato but not as good as in Zillah. The second object was described as roundish and oblongish with colored lights, half the size of a football field. The object moved directly overhead and it moved across the clear sky blanking out the stars where it went while passing. This was seen in Zillah only. The estimated altitude as it moved overhead was one mile and was under observation for two minutes juts moved out of sight with no sound of any kind.

One witness reported he heard a very loud noise out in the farm yard. Said he had a very large farm cart, large metal trailer type thing with metal bed and something was shaking it violently making an awful lot of noise and then the yard light went out suddenly, he went back into the house and got his rifle and fired in the air, the noise stopped and then the yard light came back on. The following morning he went out to the area around this cart or trailer and found circular impressions in the ground which went across the field as though something was walking across the field. He is 6 feet 4 inches and weights 230 lbs. and he says he could not have made the same kind of indentation on the ground. The it was so hard and the strides exceeded any that he could even stretch out to.

A witness reported observing a V shaped object.

She stated: while driving down the road going towards Mendon, a trigle shaped object hovered over her car.

The witness said: when she looked up at it, she could see the bottom of the object, and said it had alot of lights on it. She also said at this time while the object was hovering over her car, that she felt very light headed.

The witness stated: at this time the object seemed to have left the area, and she started for home.

This was not an isolated case. At approximately 12:50 - 09/06/1986 the witnesses father was on his way home near Mendon, and he also reported observing an object. He stated: the object was circular in shape and said: the object was off to the side of the road when he first observed it and that it was stationary or hovering over a pasture. When he got home his daughter said: that her eyes were burnt also.

   SOURCE: NEWS, LIMA, OH

An offical of the Center for UFO Studies is seeking information from anyone who might have seen a phenomenon similar to one reported by a Lima man.

Arley Taylor said he was making deliveries to Scot Lad Foods Inc., 1100 Prosperity Road, at 4:30 a.m. today when he saw an orange light in the sky, "that was the size of a grapefruit and darted about like a hummingbird for about 10 to 15 seconds, then disappeared."

Taylor, 55, of 1030 Cornell Drive, reported the sighting to Lima's John Timmerman, vice president of the Center for UFO Studies in Glenview, Ill. Taylor said he studied the sky as he continued on his delivery route, but didn't see the object again. Taylor works for Service American Corp., 1251 N. Cole St.

The light was in the northwest, apparently some 200 feet above the ground, and could be seen against the overcast sky, said Taylor.

Timmerman asked that anyone who might have seen a similar phenomenon today contact him in writing at P.O. Box 1621, Lima.

 Report #: 175
     From: UFO INFO SERVICE
Date Sent: 10-16-1986
  Subject: WIKIEUP, AZ

CASE TYPE: LRS - DS
     DATE: 10 JULY 1986
     TIME: EARLY MORNING
 DURATION: UNKNOWN
WITNESSES: MANY
   SOURCE: ARIZONA REPUBLIC, PHOENIX, AZ

WIKIEUP - The Arizona Department of Public Safety said the people were sober and on their way to, not from, Las Vegas. The motorists reported an an other-worldly light on the western horizon followed their car as they traveled toward Las Vegas shortly before dawn Thursday.

However, an expert on heavenly bodies said later Thursday that the light probably was nothing more than the planet Mars.

A member of a group that compiles reports of UFO sightings does not agree.

At this point, officers of the DPS don't really care what it was. They are tired of all the hoopla.

A motorist, who DPS spokesman Alan Schmidt said wants to remain anonymous, told an officer that she, another adult and her two sons were driving to Las Vegas, Nev., on U.S. 93 early Thursday when she and her sons spotted a strange orange light that hovered above the western horizon and appeared to follow the car as it traveled north.

The object was said to "pulsate like a star" and was described as appearing "about twice as bright and twice as big as a star."

Patrolman Veronica Minch, Schmidt said, had spotted the object earlier.

"She thought little of it and went on about her business," Schmidt said.

"Meanwhile, down the road, these people see it."

The DPS phoned Nellis Air Force Base, near Las Vegas, "to see if any rockets or balloons had been launched," Schmidt said. "They said they had no activity like that."
